e-NV200

Zero Emission

READY TO CHANGE YOUR BUSINESS? GET READY TO GO ELECTRIC.

When you combine our award-winning NV200 with our award-winning 100% electric LEAF (already over 100,000 on the roads), you get breakthrough and innovative benefits for your business. e-NV200 shares exactly the same technology as Nissan LEAF. It's a payoff from the start, running 100% electric gives you a whole new way to drastically lower your running costs while instantly giving your business environmental and sustainable new direction. With the e-NV200, you begin a new era for your business. You'll never work the same again.

Load up with ease

Class-leading interior length means you can easily fit two Euro pallets in your rear cargo area. The battery is integrated into the floor which offers you this large cargo area.

Take the whole crew

Accommodate passengers or a work crew. The e-NV200 comfortably seats between 2 and 5, while still having between 2.32 to 4.3 cubic metres of cargo space.

Set it up your way

Your rear cargo space is functional and versatile, with flat walls for easily mounting upfitter racks and bins.

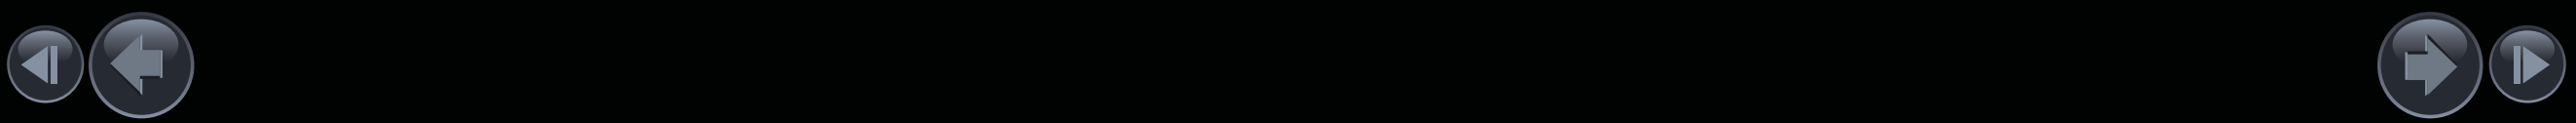

LOWER YOUR COSTS. BOOST YOUR EFFICIENCY.

Imagine never having to shell out money for fuel, oil changes or transmission service. That's what happens when you go 100% electric with the e-NV200. And in addition to saving money with low running costs, you save time. Because you never have to stop at a petrol station again, and there's far less vehicle downtime for maintenance. Best of all, your incredibly cost-efficient vehicle is the most environmentally friendly mass-produced van on the market – so quiet and clean, you can make nighttime residential deliveries and gain access to protected and indoor areas. Finally, a vehicle for your business that opens new business opportunities.

LOW Running Cost Maintenance	NO Petrol Oil changes Emissions	HIGH Efficiency: 80 kw (107 hp) Savings & benefits
---	---	--

CREATING NEW BUSINESS OPPORTUNITIES

Because the e-NV200 is a zero emissions vehicle with no engine noise, you can quietly make nighttime deliveries in residential areas, indoor areas and protected areas. No more noise & CO₂ pollution in your working environment & for your customers.

WORK WITH THE POWER OF 100% ELECTRIC.

Start the day ready to go on a full charge, with a 170 km (NEDC) range for all of your drop-offs, pickups, appointments and deliveries. Nissan e-NV200 offers you 3 charging modes: You can charge in about 30 minutes with the quick charge port, in 4 hours with a wall box and on any regular plugs at home or at your workplace in 8 hours: you just have to pick the most convenient mode. And with its regenerative braking system, the e-NV200 is engineered to help you get the most out of every charge by sending power back to your battery any time you coast, decelerate or brake. It's the upside to stop-and-go traffic.

2 additional driving modes to maximise your range. Eco Mode automatically adjusts acceleration response and the climate control system to minimise energy output. Now that's power you can work with. The B mode can be activated whether you are driving with the Eco Mode or not. The B Mode will increase the strength of the regenerative braking system. It acts as engine break on a ICE car.

A BETTER DRIVE, A BETTER WORKDAY.

There's nothing like driving electric, the sensation of quietly gliding along, no engine noise or vibration. Add to that a driver-focused cabin that includes class-leading leg room and high, truck-like seating for greater visibility, and you're looking at happier, less fatigued, more confident drivers. All that with the comfort of an automatic gearbox that increases driving pleasure and with exceptionally agile handling (thanks to a low centre of gravity and 15" wheels), instant EV torque for quick smooth acceleration, and a tight turning radius for easy manoeuvrability, the e-NV200 may just become the best part of the job.

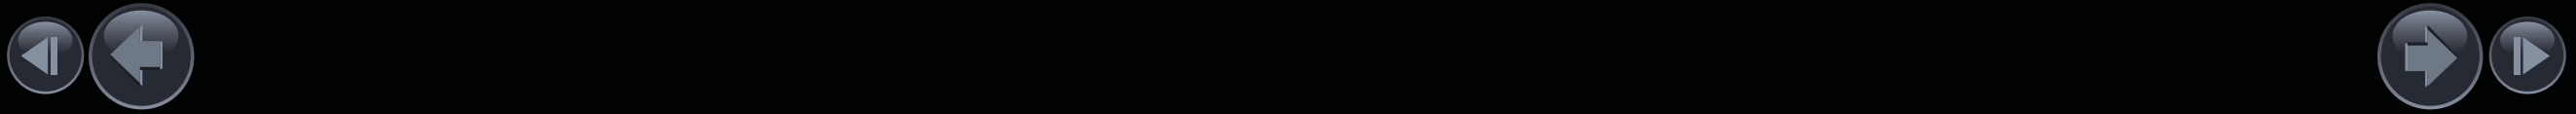

- Class-leading driver leg room = more comfort
- Truck-like seating = greater visibility
- Heated seat = more comfort
- Battery distribution = low centre of gravity

Rear View Monitor Makes tight parking spots more inviting. This available feature shows you a view of the area behind you and superimposes guidelines to help you position the e-NV200 exactly where you want it.

The e-NV200 has an incredibly tight 11.3 m turning circle that helps you negotiate narrow streets and tight parking spots, while pulling up as closely as possible for loading and deliveries.

State of charge

Estimated range
Remaining battery charge

With just a glance at your instrument panel, you have all the info you need to manage your range, including charge status and energy usage.

MONITOR ALL INFORMATION YOU NEED FOR YOUR JOB

CARWINGS advanced telematics system puts your business miles ahead by letting you digitally track and exchange data.

- Monitor battery status from the CARWINGS website and smartphone app.
- Receive alerts for charge completion and battery status.
- Remotely start and stop charging and climate control from a mobile device.

A MOBILE OFFICE THAT WORKS ANYWHERE YOU GO.

e-NV200 offers an unexpected level of equipment. e-NV200 interior is inspired by drivers who need to get work done on the go. The cockpit doubles as an easy-to-use work space, with large range adjustable seating and versatile storage. And with NissanConnect featuring navigation, hands-free calling and text messaging, and Bluetooth streaming audio, who needs any other office?

UNDER-SEAT SLIDING DRAWER on the passenger's side gives you a secure way to store items.

CENTRE CONSOLE is large enough to hold a laptop computer – it's even designed to hold hanging files.

One screen does so much. A change in delivery address? Get the update via text message then find your route on the navigation system.

Fold down the passenger seatback for a sturdy and convenient flat writing surface.

Mounting the transmission on the steering column opens up the space you need to multitask. Get plenty of power up front with a 12-V power supply and USB connection.

CARGO CAPACITY MEETS VERSATILITY FOR A PERFECT FIT.

The e-NV200 is designed to meet a variety of needs. Choose from 2 models, both with a versatile interior that allows you to configure racks, bins and seating to custom-fit your services. You can even choose between French doors with panels or windows and tailgate. Plus, it's easy to load, thanks to an exceptionally low 520mm rear load height.

Even with 5 people on board, the e-NV200 Combi can still take a large suitcase for each of them.

Flat wheel wells make for easier cargo stacking.

6 floor-mounted D-ring tie-downs are rated to 509 kg.

e-NV200 Combi

The Combi can comfortably seat up to five people with 2.3 cubic metres of luggage space. Dual sliding doors and a rear hatch allow easy entry/exit and loading.

BEST-IN-CLASS
4.2m³ Cargo capacity
3474 Litres
770 kg payload

2.04 m – enough length behind the front seats for two Euro pallets
2.8 m – space for a long ladder (with optional folding bulkhead)

1.22 m between wheel arches
1.50 m wall-to-wall
1.36 m stand-up room

60%
For wider loads.

520mm rear load height

40%
For tighter situations. Cargo

Two standard Euro pallets fit with room to spare.

e-NV200 Combi

For maximum cargo space, the e-NV200 gives you best-in-class cargo volume. Rear split 60/40 doors make it easy to load and unload.

Ask your sales representative about including accessories in your Nissan finance deal and benefit from a financing plan that suits you.

Nissan Genuine Accessories

3 years or 100,000 KM if fit at PDI by Nissan dealers (Parts and labour)
12 months if fit by 3rd Party or customer (Parts only / unlimited mileage)

Nissan Approved Accessories

2 years or 100,000 KM if fit at PDI by Nissan dealers (Parts and labour)
12 months if fit by 3rd Party or customer (Parts only/unlimited mileage)

NISSAN 5★ EXTENDED WARRANTY

Nissan 5 year Extended Warranty provides you with ongoing protection after the standard warranty ends.

Protect your e-NV200 for longer with our comprehensive Extended Warranty cover to extend your cover to 5 years or 150,000kms whichever comes first.

The Nissan Extended Warranty covers the cost of repairing or replacing covered mechanical or electrical components should they expectantly breakdown due to warrantable defect of material or workmanship during the period of cover.

If you sell your Nissan privately, you can transfer the cover to the new owner adding value to your vehicle when you sell. Transfers are free.

NISSAN SERVICE PLAN

Nissan Service Plan is the easiest way to give your Nissan e-NV200 the maintenance it deserves while you save money in the long run.

Nissan Service Plan provides a convenient and easy solution, enabling you to spread the cost of your servicing needs by making low monthly payments rather than having to pay the full amount all at once.

Nissan Service Plan also ensures that your Nissan e-NV200 is serviced in line with manufacturers recommendations/specifications giving you peace of mind motoring.

A well maintained vehicle offers Nissan drivers safety, reliability and economy with a "FSH" (Full Service History) also protecting future residual re-sale values.

Nissan Service Plan customers can also rest assured that your vehicle is maintained and serviced by qualified Nissan technicians using Genuine Nissan Parts.
